DALHOUSIE UNIVERSITY
Inspiring Minds

Tri-Faculty Interprofessional Academic Advisory Committee
FACULTIES OF DENTISTRY, HEALTH PROFESSIONS AND MEDICINE
2006-2007

Non-Expert Facilitators Required

We need facilitators for each interprofessional learning session held in the McInnis Room, Student Union Building on Dalhousie University campus. Even though our new site reduces the overall number of sessions, we still require 4 to 5 facilitators per session or 56 to 70 facilitators for all sessions.

With the exception of the lead facilitator who actively directs each session, the role of the facilitator is that of a non-expert. Facilitators monitor several groups of students as they collaboratively work through case studies and other assignments to ensure that all work on the assigned task. Very rarely is a facilitator required to step in to take an active role in a non-functioning group. All facilitators receive module material, including timeline, in advance of their session.

If you are willing to facilitate, please complete the following form and fax or mail to Greta Rasmussen, IPL Project Manager at 494-6291 or C123, CRC Bldg, Carleton Campus, Dalhousie University.

Thank you for participating in the Tri-IPAAC interprofessional learning program.
